

## WHAT IS SANTRAX® ADVANTAGE?

**Santrax® Advantage** is designed for agencies that complete all or part of their assessments on paper. **Santrax® Advantage** converts handwritten assessments into an electronic format, performs an audit and corrects errors prior to submission to Medicare. It was designed by clinicians to improve OASIS data accuracy and to better manage OASIS clinical consistency in the overall OASIS Management process. This includes the ability to access and manage PPS data, to review HIPPS and HHRG scores and associated data points prior to submission to the state, as well as facilitating timely management of the OASIS intake process to reduce day-to-RAP, and to enhance the case management process. **Santrax® Advantage** also enhances the agency's preparation for Pay-for-Performance and Regulatory Compliance.

## SANTRAX® ADVANTAGE ROI

**Santrax® Advantage** directly impacts the ROI of your organization by:

- Eliminating manual data entry
- Reducing clinical inconsistencies and CMS submission errors
- Reducing day-to-RAP
- Requiring no special IT equipment
- Requiring no IT resources to maintain application

## SANTRAX® ADVANTAGE FEATURES

**Santrax® Advantage** features include daily real-time clinical, financial and operational data. It is deployed as an SaaS model with rapid web-based deployment for instant upgrades and data transmittals. It contains multiple OASIS data collection methodologies: Sandata's proprietary SmartEdit functions, ICD-9, Medications and Physician NPI look-ups. Multi-level reporting includes corporate, agency and branch data and analytics. OBQI and OBQM reports are also conveniently processed and made available on our website without customer intervention.

## ENHANCING WORKFLOW FOR THE CLINICIAN

**Santrax Advantage®** streamlines workflow and enhances efficiency for clinicians through advance features and functions. These include:

- **Santrax® PPS Collect:** There are a number of ways to collect data including CareTab (electronic forms, medications, skilled nurse and therapy forms, visit notes and physician order modifications) and Clinical PDA (a mobile application designed to meet the unique needs of home healthcare clinicians), scanning, electronic uploads, or data entry of OASIS and 485 data.
- **Santrax® PPS Editor:** Is an assessment management tool which allows anytime/anywhere CMS edits and proprietary SmartEdits. The SmartEdit feature is an educational tool improving inter-rater reliability.
- **Santrax® PPS Medication Manager:** This includes 92,000+ medications with possible drug interactions.

# SANTRAX® ADVANTAGE

- **Santrax® PPS Dashboard:** The dashboard contains Episode Management reports that proactively manage Recerts, Assessment Errors, Transmission Status, Patients-on-Service, Transfers, Discharges, and OBQI/OBQM. The dashboard also features Corporate, Agency and Branch reporting levels.
- **Santrax® PPS Trans:** Transmits to the state and returns Initial Feedback Report (IFR) and Final Verification Report (FVR) reports daily. OBQI and OBQM are posted quarterly. There are also selected monthly miscellaneous state reports that are available for the user to view.
- **Santrax® Advantage Exec:** Allows PPS executives to focus on summary reports pertinent to home healthcare. Quarterly reports are updated monthly. Case mix performance is updated by the week or month.
- **Interfaces:** Available to leading vendors in home healthcare.

Case Mix				
HPPS:	1BFKS	Data Validity Flag:	5

	Disputed	Actual		
Reimbursement:	\$1,701.90	\$1,701.90		
Cost (Based on POC):	\$0.00	\$0.00		
Profit:	\$1,701.90	Profit:	\$1,701.90	

## SANTRAX® ADVANTAGE OUTCOMES

All OASIS quality indicators are benchmarked to the Sandata national database, OBQI measures selection and drill-down to patient level (benchmarked quarterly, updated monthly). Functional and health status measures include High and Low Performance, Geographic Comparisons by Measure, Like Agency Comparisons by Measure, Utilization Reports, Overall Performance Reports, top 10 Home Health Resource Group (HHRG) and Diagnosis Group analysis. Corporate reports are available for multi-site organizations to provide internal benchmarking for branch and agency.

## DATA ENTRY

**Santrax® Advantage** provides multiple data entry options in addition to traditional scanning of paper assessments. They include:

- **Santrax® Clinical PDA:** Enables your staff to, through an intuitive, easy-to-use process, collect critical patient data on a Blackberry. Information is verified for accuracy and submitted directly to your clinical system. Standard OASIS forms, comprehensive assessment forms, physician orders and visit notes come with built-in CMS edits and our proprietary SmartEdits, alerting you to any clinical inconsistencies within the forms.
- **Santrax® CareTab:** Enables your staff to collect data on a standard data tablet or laptop. The **Santrax® CareTab** system includes a "Problems" tab that alerts the user to questions that have been by-passed and indicates clinical inconsistencies. Data collection can be done on or off-line. Off-line users will automatically have their completed forms uploaded to the back-end system. Forms are accessible to the agency for further coding and follow-up in anticipation for final review and transmission.
