

ABILITY SECUREPAY is a comprehensive application that streamlines management for 100 percent of client payment revenue.

How home care organizations benefit:

- **Boost customer service:** An easy-to-use online payment portal provides clients the flexibility to use their preferred payment method, including credit cards, and make payments 24/7.
- **Improve cash flow:** Reduce accounts receivable with easy, secure point-of-service payment processing and automation of scheduled, recurring and account-on-file payments.
- **Reduce administrative time:** Get real-time access to payment data, automate time-consuming tasks and manage 100 percent of client payment transactions in one place.
- **Accept all forms of payment:** Manage all forms and methods of payment through multiple channels with one simple tool.
- **Gain management insights:** Unlimited standardized and customized reporting keeps providers on top of payment status, accounts receivables and determines where improvements in client payments can be made.

ABILITY SECUREPAY offers a suite of web-based tools that enables providers to manage all payments in one place. Staff spends less time on manual administrative tasks, which leads to dramatically improved cash flow. Clients benefit with flexible and convenient payment options, including credit cards, and 24/7 access to a payment portal.

Providers enjoy an easier way to handle client payments, improve cash flow and strengthen their bottom line.

Application Features

- **Online bill pay:** Accept credit, debit or HSA cards, eChecks or ACH 24/7 on a mobile-friendly, secure and branded link on provider's website.
- **Point-of-service payments:** Accept credit, debit or HSA cards, checks and cash with secure technology. Platform features chip encrypted swipe, contactless card processing, check scanning and mobile processing.
- **Automated payments:** Set up payment terms for any frequency, duration and amount. Collects payments from cards or bank accounts while auto-generating email receipts and processing refunds electronically.
- **Electronic banking:** Reduce trips to the bank with OCR check-scanning and remote deposit.
- **Complete payment capture and management:** Accept all forms of payment, void same-day transactions, print and email custom receipts and view and settle daily log report with secure all-day user access.
- **Virtual Business Office:** Access one easy-to-use dashboard to securely manage payment transactions.

Virtual business office features:

- Establish user-level permission and access
- Auto-post to client accounting software
- Export files for simplified reconciliation
- Manage and accept all forms of payment
- Void, credit and refund electronically
- Perform quick sale and quick credit transactions
- Print and email receipts
- Archive transactions permanently
- Authorize and hold guarantee of payment
- Search all transaction details
- Batch upload variable transactions
- Transfer patient data for recurring payments
- Create unlimited custom reports

"We are thrilled with the enhanced payment automation and options that ABILITY SECUREPAY brings to our customers, and further building on our longstanding partnership with ABILITY."

David Birnbaum,
Executive Vice President at Sandata
